EuskalHack

Security Congress III

] Call For Papers [

] CONTENTS [

Introduction :\>

EuskalHack Security Congress Third Edition is a new proposal from the EuskalHack Computer Security Association, with the aim to promote the community growth and the culture in the digital security field. As usual, in this new edition proximity to our public and technical quality will be our hallmarks.

This exclusive conference is shaping up as the most relevant in Basque Country, with an estimated 180 attendees for this third edition.

The participants include specialized companies, state security organizations, professionals, hobbyists and students in the area of security and Information Technology.

Date and location :\>

The date for the conference is the 22nd and 23rd of June 2018 in the lovely city of Donostia – San Sebastian.

Take part as a speaker :\>

We want to open the doors to all those who wish to be part of this third edition of the EuskalHack Security Congress in one of the various categories of talks and workshops we offer.

We are looking for small workshops or talks related to digital security, information security or tech in general, such as:

- Robotics, Drones, Consoles, Hardware Hacking, Gadgets, mobile environments…
- Critical infrastructure security, industrial environments, Smart City, financial…
- Cloud insecurity, virtualization, containers, Hardening, cloud forensics…
- GSM signal hacking, SDR, LTE, 3G, Satellite links, VoIP…
- Cryptography, steganography, forensics techniques and countermeasures…
- Data mining, Neuronal networks, statistical modeling…
- Malware, APT, Sandboxing, Sandbox escapes, Bypassing "things"…
- Corporate security and intelligence, OPSEC, OSINT…
- Web Hacking, SQL and NoSQL injection, LDAP injection, Hacking with search engines…
- Hacktivism, net neutrality, Deep web, darknet, cryptocurrencys…
- Reverse engineering.

All proposals will be valued according to its originality, educational value, contribution to the community, and the capacity to make our audience have a good time.

Highest priority will be given to those proposals that have not been previously exhibited at another event. Please don't forget to indicate it when making your submission.

Language and internationalization :\>

At EuskalHack we value linguistic diversity and internationalization; this is why we accept talks in Spanish, Basque or English. Just let us know what language you plan to use for your slides and for the talk.

Note: We positively value bilingual options which can be understood by the maximum number of attendees as possible as, in example, slides in one language while speaking in another one.

Talks and Workshops :\>

We will have several spaces over the course of the event, which will include talks and workshops concurrently, taking two different approaches:

NUMBER	1	2
TYPE	Standard talks	Specific workshops
DURATION	50 minutes duration	120 minutes duration

Once all the proposals have been received, the total number of presentations of each type will be determined, considering aspects such as technological diversity and the audience.

Proposals :\>

Proposal submissions should be sent before March 19th through the forms found on the following links:

LANGUAGE	LINK
ENGLISH	https://goo.gl/nM9pKa
SPANISH	https://goo.gl/NkABaf
EUSKERA	https://goo.gl/qdB2mS

Dates to consider :\>

The following are the dates and milestones which should be considered during various phases by the speakers directly involved:

DATE	MILESTONE
